

SHILPA SARKAR

QA Engineer | Manual & Automation Testing | Cypress | API Testing | SDLC/STLC

+91 8010118902 | shilpasarkar6715@gmail.com | Nagpur, Maharashtra | [linkedin.com/in/shilpa-sarkar-7a4782278](https://www.linkedin.com/in/shilpa-sarkar-7a4782278) | github.com/shilpa475

PROFESSIONAL SUMMARY

QA professional with 1+ year of hands-on experience in manual and automation testing for a multi-tenant enterprise SaaS platform. Skilled in test case design, functional and regression testing, defect tracking (Jira), and building automated E2E test suites using Cypress covering login, form validation, cart, and search workflows. Strong grasp of the full SDLC/STLC, with a developer's understanding of React.js, PHP/Laravel, and REST APIs that enables faster root-cause analysis and precise bug reporting. Proven track record of identifying and resolving 20+ production defects across frontend and backend layers.

TECHNICAL SKILLS

Testing: Manual Testing, Functional Testing, Regression Testing, UAT, Test Case Design, Exploratory Testing, API Testing, Cross-Browser Testing, Bug Life Cycle Management

Automation: Cypress (E2E Automation), JavaScript, Test Scripting, Assertions & Validations, Dynamic Test Data Handling

Tools: Jira, Git, GitHub, Postman, VS Code, Cypress Test Runner

Dev Foundation: React.js, PHP, Laravel, REST APIs, SQL, MySQL, PostgreSQL, MongoDB

Core Concepts: SDLC, STLC, Agile/Scrum, Debugging, Root-Cause Analysis, Cross-Functional Collaboration

PROFESSIONAL EXPERIENCE

Associate QA Analyst

Sep 2025 – Present

Lissen.io, Nagpur

- Performed manual and functional testing across 5+ modules of QaizenX, an enterprise multi-tenant SaaS feedback platform, identifying and logging defects in Jira prior to release
- Debugged and resolved 20+ critical production issues across frontend and backend layers through systematic root-cause analysis, reducing system downtime by ~30%
- Validated 10+ RESTful APIs (PHP/Laravel) for correctness, response accuracy, and edge-case handling, supporting QA sign-off before deployment
- Verified survey analytics workflows against PostgreSQL and MongoDB data to ensure accuracy of reporting and multi-tenant data isolation
- Collaborated in an agile team environment, contributing to sprint planning, test case reviews, and on-time, defect-free feature delivery

Software Developer Intern

Jan 2025 – Jun 2025

Wide Softech Pvt. Ltd., Nagpur

- Tested and validated responsive UI modules built with React.js Hooks across 3+ client projects, reducing bug count by ~40% through systematic debugging
- Conducted cross-browser and functional testing for a live production site (Munchkin Preschool), ensuring consistent behavior and UX across devices

PROJECTS

Automation Testing Suite — Cypress | github.com/shilpa475/automation-testing-project

2026

- Built a 7-case Cypress E2E automation suite for an e-commerce site, covering login (positive + negative), signup, full registration, cart, and product search
- Implemented dynamic test data (timestamp-based unique emails) to ensure repeatable, independent test runs
- Documented setup and execution steps in README for reproducibility; achieved 100% pass rate across all test cases

QaizenX — Enterprise Feedback Management Platform

Sep 2025 – Present

- Tested and validated React.js frontend modules against PHP/Laravel backend APIs for real-time survey data flow and analytics accuracy
- Verified API endpoints for survey creation, response collection, and reporting workflows to catch regressions before release

EDUCATION

Master of Computer Application (MCA) — CGPA: 9.33

2023 – 2025

JD College of Engineering and Management, Nagpur

Bachelor of Computer Application (BCA) — CGPA: 8.34

2019 – 2022

Sardar Patel Mahavidyalaya, Chandrapur
