Professional Summary

QA Engineer with 1+ year of hands-on experience in manual and test automation for a multi-tenant enterprise SaaS platform, with exposure to exploratory and black-box testing on enterprise-scale systems. Skilled in test case design, functional and regression testing, defect tracking (Jira), and building automation suites using Selenium with Java (TestNG). Strong grasp of the full SDLC/STLC, with the ability to verify REST APIs and analyze frontend/backend issues for precise bug reporting. Proven track record of identifying and resolving 20+ production defects across frontend and backend layers.

Technical Skills

Testing & Automation: Bug Life Cycle, Selenium with Java, TestNG, Functional & Regression Testing, Manual Testing, Exploratory & Black-Box Testing, API Testing, Test Case Design, Performance Testing

Tools & Frameworks: Selenium WebDriver, TestNG, Git, GitHub, Jira, Postman, VS Code

Databases: SQL, PostgreSQL, MongoDB

Web Fundamentals: HTML5, CSS3, JavaScript (ES6+), React.js

Methodologies: Agile/Scrum, CI/CD Concepts, SDLC/STLC, Sprint Planning, Defect Management & Reporting

Professional Experience

Software Test Engineer

Jul 2025 – Present

Lissen.io

Nagpur, Maharashtra

- Conducted manual, functional, and API testing across 5+ modules of QaizenX, an enterprise multi-tenant SaaS feedback platform, logging 30+ defects in Jira prior to release.
- Engineered automation for survey creation, question-add, and launch stages using Selenium with Java and TestNG, covering 6+ question types and 15+ regression scenarios.
- Developed test cases for the internal office feedback form process using Selenium with Java and TestNG, validating form submission and data accuracy across 10+ test conditions.
- Resolved 20+ critical production issues across frontend and backend layers through systematic root-cause analysis, reducing system downtime by 30%.
- Checked 10+ RESTful APIs (PHP/Laravel) using Postman for correctness, response accuracy, and edge-case handling, supporting QA sign-off before deployment.
- Cross-verified survey analytics data against PostgreSQL and MongoDB databases spanning 5+ modules to safeguard reporting accuracy and multi-tenant data isolation.

Software Developer Intern

Jan 2025 – Jun 2025

Wide Softech Pvt. Ltd.

Nagpur, Maharashtra

- Created and maintained responsive UI modules using React.js Hooks (useState, useEffect) across 3+ client projects, improving component reusability and cutting bug count by 40%.
- Debugged and stabilized frontend features for a live production site (Munchkin Preschool), reducing reported UI issues by ~25% across browsers and devices.

Projects

QaizenX – Enterprise Feedback SaaS Platform | *Selenium, Java, TestNG, Postman*

Jul 2025 – Present

- Carried out manual and functional testing over 5+ core modules to confirm business logic, UI behavior, and workflow accuracy ahead of test execution.
- Built structured test suites using Selenium with Java (TestNG), expanding UI test coverage across 5+ core modules.
- Ran API tests using Postman covering 10+ endpoints to check response accuracy, request payloads, and edge-case handling.

Education

JD College of Engineering and Management

Jul 2023 – Jul 2025

Master of Computer Application (MCA) — CGPA: 9.33

Nagpur, Maharashtra

Sardar Patel Mahavidyalaya

Jul 2019 – Jul 2022

Bachelor of Computer Application (BCA) — CGPA: 8.34

Chandrapur, Maharashtra
